Ortho	Weed-B-Gon Lawn Weed Killer “Lock-N-Spray”	2,4-D, MCP, dicamba
Southern Ag	Lawn Weed Killer	MCP, 2,4-D, dicamba

While this is probably not a complete list of herbicides labeled for postemergent weed control in buffalograss lawns, it does contain the herbicides I commonly found in garden and retail stores.

Always instruct individuals to read the label before purchasing and before applying to make sure when it is safe to use these herbicides in buffalograss and to determine which weeds they will control.
